

I Call It Heaven

Billy Walker

[duet with Ray Price]
They call me a fool and say it won't last
That you'll break my heart like the ones in your past
They're calling you wild you'll never be true but I call it heaven just being with you
Perhaps I should listen perhaps I'm not smart
But I take my chances and follow my heart
They call this a game you'll leave me some day but I call it heaven don't take it away
[steel]
Perhaps I should listen...
