

She Goes Walking Through My Mind

Billy Walker

She goes walking through my mind
I've tried to drive away her memory but each night it comes back to torture me
Cause once again there she is right on time
When she goes walking through my mind
She goes walking through my mind tearing out a little each time
Her footsteps are getting louder all the time when she goes walking through my mind

I've tried to drown my thoughts in the wine
But a glass full of heartaches all I found
Cause once again there she is right on time and she goes walking through my mind
She goes walking through my mind...
