She Goes Walking Through My Mind

Billy Walker

She goes walking through my mind

I've tried to drive away her memory but each night it comes bac k to torture me

Cause once again there she is right on time

When she goes walking through my mind

She goes walking through my mind tearing out a little each time Her footsteps are getting louder all the time when she goes wal king through my mind

I've tried to drown my thoughts in the wine
But a glass full of heartaches all I found
Cause once again there she is right on time and she goes walkin
g through my mind
She goes walking through my mind...
