

Come Alive

Biohazard

It's time to come alive, wake the dead, terrorize

Rip apart the pain inside, come alive, come alive

There's no need to hate on me, celebrate the fact we're free

Rip apart the pain inside, come alive, come alive now

Don't waste your fucking time

'Cause i don't need your fucking lies

I live life with no regret

Come alive, wake the dead

Live life with no regret

Come alive, wake the dead now

Live your life, come on rise up

Before your demise

Trapped inside your misery, escaping reality

Open up your blinded eyes, come alive, come alive

Lift yourself up when you can, lift up all your fellow man

The time has come to realize, come alive, come alive now

The cycle of life, fight til you drop

You gotta live it up with everything you got

Stop the bleeding, kill the flow

You gotta rise up motherfucker let's go

Don't waste your fucking time, 'cause i don't need your fucking lies

Live my life with no regret, come alive, wake the dead now
