## **Kings Never Die**

## **Biohazard**

I wanna be remembered for all the things I've done Win or lose, I never gave a fuck if I died young Live fast, die young, that's the way I liked to live Buy now, pay later, throw away and never give

Live life, take it by the balls and never look back You can feel the power growing every day Getting stronger by the minute gonna blow a vein Survival of the fittest, I'm a realist I know where I've been, I know I will exist In the future I know I'm gonna be the man I'm gonna climb to the top and make my stand

Kings never die You will live forever for what you did Warriors never lie Cause your word is all you have to give

A man's merit is measured by what he did
No one writes a book about a failed man
Who never lived
Live life, take it by the balls and never look back
Cause when we're dead and gone the past lives on

Kings never die They watch over me as I fight to live Kings are crucified Evil thrives where cowards die

Never look back
My name will never die
