

## Set Me Free

Biohazard

I work hard everything I need comes to be  
I can look in the mirror and smile back at me  
I get up and go to work, I'm proud of what I see  
I stand tall, cuz hard work sets me free

I drag myself out of bed each day to earn my keep  
Each day gets harder but I won't quit cuz I ain't weak  
The trick is to make it easy, don't complain just grit your teeth  
And do what you gotta do to pay your fucking bills this week

Work hard, everything you need will come to you  
Get up, go to work, be proud of what you do  
Stand tall, brush it off, grow some thick skin  
Working hard set's you free, state of discipline

I keep my head above the water, I fight for life  
Sometimes I take it on the chin, hold my breath and dive  
The days get harder and longer, blood and sweat I  
Give working hard cuz nothing's free until I die

Work hard, everything you need will come to you  
Get up, go to work, be proud of what you do  
Stand tall, brush it off, grow some thick skin  
Working hard set's you free, state of discipline

Doing work to live or live to work  
Missing out on time with friends and family hurts  
It does no good to hurt the ones  
You hold close inside

I kill myself from inside out and die

You know I'm always there when you need me  
I'm always there for you

I'm always in your corner fighting for your name  
I always got your back

Get up, get to work,  
Bust my ass all day  
Drag my tired ass back home  
Fast food, no time to rest, quick play  
Close my eyes, it's time to die
