

Skullcrusher

Biohazard

Over the edge, now you've pushed me over the edge

Fear is the enemy, the destroyer of my fate

The one that rips my destiny

And strangles me with hate

I control my future, fight the negatives

Inside my head i wage a war to die or to live

Killing me with misery

Skullcrusher

Smashing all your hopes and dreams

Skullcrusher

Empty promises, broken lives

Skullcrusher

In this world everything must die

Skullcrusher

Die

I push through the pain,

The only remedy

There is no other alternative

The pain is killing me

Action must be taken

Inflicted misery

The harder it is, the harder i fight

To die or to be free

Blood red blinds my eyes

Adrenaline takes my breath

My hate like gasoline

Revenge like crystal death

Knocked down,

Always get back up

Take life by the balls - and never ever give up

The strong survive,

The weak will die

King of all kings

I'm still alive
