

## To the Grave

Biohazard

The demons loved to eat from the inside out  
They didn't like me cuz they spit me out  
The shell of rotting flesh always wore me out  
Sometimes in life, you gotta do without

Rising from the gutter I pushed ahead  
I kept my nose clean even when it bled  
I always walked tall no matter what was said  
I've never looked back, now I look ahead

To the grave I take all that I've learned in life  
Good or bad, dark or evil, black or white

I never sold my soul

That was how it used to be but this is now  
Way back in the day we didn't know how  
Loud is how we talked and proud is how we walked  
Only the strongest survived on the block  
Fucking with the bull will get you stuck good  
Heavy on my word is how I stood  
Time's moved on, we ain't kids no more  
I'll never look back as I close the door

To the grave I take all that I've learned in life  
Good or bad, dark or evil, black or white

I never sold my soul

Can't you see it, you're too blind to  
I don't need you, I'm moving on  
Too much bullshit to have to deal with  
I don't want to, I'm moving on  
I'm gonna lose it, can't take the shit  
I don't have to, I'm moving on  
I can't fight it, it's overtaking me

Man will do what man will do  
Man's gotta work to pay his due  
Some things change and some things don't  
Some will do and some fucks don't  
I take pride through and through  
I'll never change, nothing new  
To the grave with all I do  
To the grave with all I do
