

# Unified

Biohazard

a word to the wise, everything seems so contrived  
I feel paralyzed, like my spirit has died  
On the inside, looking for a brother to confide  
Keep you lies to the side, be like "do or die"  
DOWN FOR LIFE with our people, yes that shit is real  
Only mother fuckers who know the real deal  
You pick the wrong side, "you that shit is suicide"  
Me and my brothers are unified  
Throw your fist up, gimme some more  
Are you raw? Hardcore, are you ready for war?  
To our people who are real, we'll fight till we die,  
We are the crew, unified

Everybody's gonna do what they got to do  
To die for the crew, always down to see each other through  
Representing to the fullest with my feet on the ground  
When we say that we're down, we're not fuckin' around!  
To the jealous motherfuckers who try to talk shit  
You'll never say it to my face, you don't wanna get hit  
If you aint with us, you're against us, ...ask those who have d  
ied  
We are the crew, ...we are unified

[Chorus]

All for one, one for all, unite and conquer, heed the call  
Can you feel it? Deep inside, unified

It's like I wanna unify us all, and tear down the walls  
I wanna blow up the white house, and the shopping malls  
With our army of four, add a illion more  
Fuck religion all the world will worship hardcore  
And bow down a kneel before the power and might  
And witness our tribal ceremony tonight  
When we move the crowd, I feel something inside  
You can never deny, we are unified

[Chorus]
