

# Wide Awake

Biohazard

Pain inside me is taking over again  
Wide awake I open my eyes into a nightmare of a life that I des-  
pise I gotta,  
break it down to the bare essentials 'cause life's too short to  
be sentimental.  
Twisting around inside my head so many crazy visions - am I bet-  
ter off dead?  
Filled with dread - gun under the bed to clip all the motherfuc-  
kers trying  
to keep me down, I ain't fuckin' around.  
Wide awake my eyes are open I can't breathe my heart is choking  
and I can't speak  
the words unspoken and I can't believe my life is broken again.  
.. (my life is broken)

Keep trying to tell myself "everything will be OK, everything w-  
ill go my way"  
'till life steps in and slaps on the strangle, tears flow and f-  
ists start to mangle.  
I wake up screaming everyday, nobody pays attention when I'm wr-  
ithing in pain,  
I got a glitch in my brain I gotta break free from anxiety, I g-  
otta let go of life  
'cause it's killing me

[Chorus:]

Wide awake my eyes are open I can't breathe my heart is choking  
and I can't speak  
the words unspoken and I can't believe my life is broken again.  
..  
My eyes are open, my heart is choking, on words unspoken, my li-  
fe is broken again

I can't believe my life is broken apart again, I can't conceive  
my time was never  
well spent, sick of everybody talking about the things they nev-  
er do, motherfuckers  
talking shit about who?  
YOU!!  
[Lead]

Pain inside me is taking over again

[Chorus]

How many times can you ask for a chance and expect everybody to  
keep giving it,  
forgiving it?

Realize this is the last time to waste away, deteriorate, decompose, and decline
