

Drinking In The Day

Birdeatsbaby

Drinking in the day and I will again tomorrow
Drinking in the day, I'll be drowning all my sorrow
And I know that you've been stepping over me
And I know that home is ever far from me
Drinking in the day and I will again tomorrow

I've always been afraid of the things I've had to run from
But god I miss the grey skies of England
Gotta keep me moving, I cannot go to sleep
And deliver me safely away from all my dreams
Drinking in the day and I will again tomorrow

And lord knows I tried long as I tried
Lord knows I tried long as I tried

Drinking in the day
Drinking in the day

I used to have a purpose but now I'm only
Drinking in the day

I used to have a purpose but now I'm only
Drinking in the day
