

# I'll Never Forget You

**Birdy**

Eighty-Six Charlie came over  
He asked me for a favor  
Asked me a question  
Asked me to make an exception

Eighty-Six Charlie, he came back  
Said he'd been thinking it over  
Said he's had a change of heart  
He thinks he's made a grave mistake

But I, I'll never forget you  
I'll never forget you  
You make things so easy  
I'll never forget you

Eighty-Six Charlie, he came back, he came back  
Sat down at the table, and for the last time  
Said he's finally made up his mind  
He wonders if it's not too late  
It's not too late because

I'll never forget you  
I'll never forget you  
You made me so angry  
I'll never forget you
