

## Make It Through

Bis

I promised that I would  
The same day every week  
Be guided how to be  
Important we meet

I'll listen as you teach  
Just follow, chant and learn  
Sign here you must repeat  
I'm so much better

They turn look round at me  
Now we all look the same  
Eight a.m every day  
I knew I could change

Will never miss a point  
Counting throughout the day  
It's me now that they want  
I'm so much better

Not all make it through you know  
Not all make it through

My future's guaranteed  
What were you thinking of  
Four years try be like me  
You must regret it
