

## Secret Vampires

Bis

We've got a secret society  
You all recognise the members  
Cause we act normally  
But when it gets after midnight  
The kids all go out  
And we become secret vampires  
There's a disco in town

You've never met us  
You won't forget us  
Got blood desire?  
Secret vampires!

The cool kids are dancing  
And we sit round the side  
It's these marks on our necks  
That we are trying to hide  
But with our pale expressions  
It not hard to see that we are  
Secret vampires and we're getting thirsty

You've never met us  
You won't forget us  
Got blood desire?  
Secret vampires! ...
