

## Silver Spoon

Bis

There's nothing like a bad joke to make the enemy choke  
Can't excuse the punchline, it never works the first time  
Look through broken windows and everybody looks cold  
Won't ask for a reason but shutting up's not easy

Tell the one about the silver spoon that I can't understand  
Tell the one about the silver spoon and I won't understand

I need secondary sight, just what's lurking behind  
Step on cracks, I'm bleeding, I never stopped believing  
Winter gave me shelter but summer left me freezing  
Thirty thousand feet up, my head has taken enough

There's nothing like a bad joke to make the enemy choke  
There's nothing like disaster to make the heart beat faster  
There's nothing like a bad day to make the enemy say  
Life is like bad joke, it's always making me choke
