

## Dark Skies Above

**Bison B.C.**

Darkened ship, ending it's flight  
Killing your god, black out the light  
A visitor slips from dark sky above  
It's judgement on us, the return of love  
Evolution  
From dark skies above  
A new world is born from fire and pain  
An alien god sets up their reign  
Bringing us knowledge far beyond ours  
Healing our wounds tending our scars  
Evolution  
From dark skies above
