

Melody, This Is For You

Bison B.C.

Melody, this is for you and it seemed we never loved you.
Enemies through and through, swallowing your fucking tune.
Sit and shake, eyes awake, the feeling breaks all I have vowed.

Darkness makes my blood cold.
This feeling never grows old.

A bloody kiss and tape hiss, the sound is loyal.
So like the air, we breathe it to make us whole.
We drown in the fullness of this emptiness.
Melody, it's fucking true time will pass, the song will last.
All of this, washing through and we still love that tune.
Exonerate, clean the slate, hearts break all that's allowed.
Make my heart explode.

A bloody kiss and tape hiss, the sound is loyal.
So like the air, we breathe it to make us whole.
We drown in the fullness of this emptiness.
Make it go louder.
