

# Feel My Soul

**Bizzy Bone**

The Lord can feel my soul, we are never alone  
Bone smokin sticks and stones  
Words can never hurt me, have no evil  
Where do we go from here? The Lord, the Lord

The Lord can feel my soul, we are never alone  
Bone smokin sticks and stones (words can never hurt me)  
Words can never hurt me, have no evil  
Where do we go from here? Wherever if baby

Let nothin break your loyalty cause loyalty be royalty  
Gather up your people we be congregatin, toiling  
Soiling, diggin deeper watchin the speaker  
Righteousness, tender hearted temperature boiling  
Humble me, words written feedin the hun-g-ry  
Christ Jesus, I be preachin your name certainly  
Bumbling and stumbling baby we still comin  
Harmony army sent you, from the land mothering  
Brotherly, Heavenly Father tryna help 'em  
Smother me in your mercies, render my everything  
Tenderly, baby remember me?  
I said it's plenty B wherever you go, September, G  
Hellified, tell the truth, don't lie  
I don't have the luxury to play I must provide  
Melody, border of my musicianary missionary  
Never no status, we positionary  
Heavenly Christ Jesus, son of the father  
Shed blood for my people, respect it and you can call me  
Definitely, if not him? Pssh, better be  
A little somethin for you to remember me

Baby we gotta get 'em, helpin 'em out now  
Some way, some motherfuckin how  
Through the court trial, people sentence me and I smile  
On lockdown, lettin me out like wow  
It's only one, spirituality to feelin the rock crowds  
Peepin me, I never put the top down  
Shootin at me, find the fountain top of the mountain (chow)  
No adultery, bravery is the sacrifice in Jesus Christ  
Yessss - and he came in the flesh  
And yes he paid the price, just like war say  
When I read it, you know I got excited  
David is the Psalm red, I feel so invited  
Gatherin the family tell 'em I love 'em, they remember me  
Heavenly, smokin in, carry that  
Knowin me, journey past blasphemy  
Baby tried to capture me, honor mommy and daddy - only one

Pray daddy not mad at me, they tryna tear us apart  
They put they hands on me, will you bless me? I'm from the heart  
Little Bryon baby, love everybody I'm around  
Payin attention baby, even even if you down  
And the frown on, and turn it upside down  
You put the smile up, I move on fast real quick, real quick  
In the weapons of the mind real slick  
Now give me grace and peace  
Praise the Father and the Son and the Holy Spirit

Increase the beast survive, your relatives and tribe  
As long as you spiritual, you always alive  
By the bloodshed in Jesus Christ, I truly thank you  
I'm livin in vain times, I love and I'm truly thankful  
I'm never alone and I think about you  
I don't have to worry, I'm alone and I sing about you  
So as we here to greet our brothers with the spiritual kiss  
Let us be stiff fast and Heavenly rain, give me your wrist...
