

# Jealousy Breeds Envy

Bizzy Bone

I got that, we, we together up in here man  
C'mon man, we together up in here man  
Jealousy breed envy, Lord guide us to this unity (get this money playa)  
Enemies never been a friend to me (ain't no hatred)  
Soon to be, where they wanna be  
Baby we gon' make it anyway that you want (it's anyway that you want)  
Cause jealousy breed envy, Lord guide us to this unity unity unity

(2x)

Cause jealousy breed envy, Lord guide us to this unity  
Enemies never been a friend to me  
Soon to be back, where we wanna be  
Baby we gon' make it anyway that you want (it's anyway that you want)

I don't sell out for no hatred, only the water conquers  
Shouts out to the {?} doors, corridors and the bombers  
Kamikaze we finally ready to get it poppin  
Breakin 'em off a little somethin, nothin for nothin it equals nothin  
Have you ever been alone? Tabernacles I have  
Every paragraph I laugh, fuck her I'm out smashed (mash)  
Get 'em out that paper, no one escape us, yes we comin  
Heavenly angel's will they help me, I'm grindin stayin out of trouble an'  
And fumblin the ball, but I'm the quarterback, coach  
Sit out benched if I have to, comin back for the reproach  
Take a toast to the homies, yes it's on, stay strong  
One day, one way, word born, holla back  
Jealousy breeds envy, Lord guide us to this unity  
Enemies ain't never been no friend to me  
Soon to be back where we wanna be  
Baby we gon' make it anyway that you want, it's anyway that you want

I hit 'em harder for my father, I love you when I'm alone  
I'm tryna help all of our people, duck the zone, the zones  
And when they take me to that special place and I'm glad they took me home  
They comin to send me, never they took me, take a look and booky  
The cookie crumbles, not a mumble when I speak {?}  
I speak from the heart, and speak to the G's  
I speak from the mind, speak from the soul, I speak wit it all  
Baby I know we even, we ain't even started you know  
'Til the world drop, tear us apart, leave us quick  
That's that bullshit, pulpit, hit 'em up with that good whip  
Cause the world tryna tear us apart, leavin 'em quick  
That's that bullshit, pulpit, hit 'em up with that good whip  
And the chain breakin us down (yeah)  
love breakin us down (you know what it is)  
Chain breakin us down - and the chain breakin us down (Bizzy the Kid)  
And the chain breakin me down (gallopin to a hood near you)  
And the chain's breakin us down, the chain breakin us down down

Seven times seventy, heavenly, melodically  
Remedy, talkin that brainwave centipede  
Elementary dear Watson, spark the light bulb often  
I'm better off in a coffin, it'll be her caught in an orphan  
The mighty fuckin warrior, wa-wa-wa-warrior  
Two different floors, bet yours I'm the matrix at its finest  
And wine it gets sipped on, attitude it gets dripped on  
The thought's stayin gripped on, I'm quick as a bit

It's Mr. Misfit, with the fifth smokin the crisp  
With water let me tell you what a lift (hey)  
It's Mr. Misfit, with the fifth and smokin the crisp  
With water let me tell you what a lift  
And the chain breakin us down down (down)  
The chain breakin us down  
And the chain breakin me now  
And the chain's breakin us down, the chain breakin us down down

[Chorus]
