Your hatred is gasoline my words are vitamin mena  
You need to shut your mouth and mind your manners  
Gettin high since I was nine  
Dead homies, I could still smell pine  
And wether I twist my tongue or not  
Little Bizzy still gonna shine  
So re-lax your mind and let your conscience be free  
And get down to murderous music from me  
Check out my new thang please  
Don't let 'em rap they whack  
Don't know how to move thangs, pack  
Or playin in stadiums, third markets

Read many books to elevate my levels  
So the words would match I am the fresh batch  
Bakery, seasons veteran kesh
