

## Betrayer

## Black Abyss

They follow blind their agressor  
Side by side and line by line  
Who are the liars  
Hatefull fights for gods and races  
It's a war we cannot win  
You are a betrayer

From everything you vlose your eyes  
How many more will have to die  
How many mothers have to cry  
Until they come to stop this lie

Everytime I close my eyes  
I feel an evil thing go around and around

Our brothers were imprisioned  
For a crime they've never done  
You are a liar  
Our sons shall live in freedom  
Our sons will live in peace  
No more betrayer

From everything you vlose your eyes  
How many more will have to die  
How many mothers have to cry  
Until they come to stop this lie

Everytime I close my eyes  
I feel an evil thing go around and around
