

## I.c. One Female

### Black Box Recorder

I.C. one female turn the sirens on  
Just a small domestic situation

I.C. one female under surveillance  
Heading northwards as the crow flies

But I still love you, I bloody well love you

I.C. one female not making any sense  
Don't think she realizes the trouble that she's in

But I still love you, I bloody well love you  
I still love you, I bloody well love you  
I still love you, I bloody well love you to death

But I still love you, I bloody well love you  
I still love you, I bloody well love you

National hysteria, a final warning  
She's heading northwards as the crow flies

But I still love you, I bloody well love you  
I still love you, I bloody well love you  
I still love you, I bloody well love you to death

I.C. one female, I.C. one female  
I.C. one female, I.C. one female
