

# Goddess

Black Buddafly

When you're stressed  
And feeling down  
No one there to help you out  
When someone did you wrong  
Just be strong  
(Look inside yourself, don't be afraid)  
Beautiful in every way  
No matter what they  
Don't let them bring you down  
You'll make it some how  
No matter the situation

You're a goddess everyday  
Every sunday through saturday  
And a goddess girl you will stay  
Though everything will be okay  
Cause every price you pay,  
Is a blessing on the way  
So don't let your stars go grey  
Wipe the tears from your eyes and say  
You're a goddess in every way

Now every star shines  
In the sky at night  
Not all this things you've been told  
Not all glitters and gold  
But you can make it work  
Yeah, you can girl  
(Keep on, keeping on and you will see a change)  
It's a struggle everyday  
Just wanna drift away  
To another world and another place  
Just break away  
It'll be okay  
Girl you're a goddess in every way

You're a goddess everyday  
Every sunday through saturday  
And a goddess girl you will stay  
Though everything will be okay  
Cause for every price you pay,  
Is a blessing on the way  
So don't let your stars go grey  
Wipe the tears from your eyes and say  
You're a goddess in every way

You're a ten  
Outside and in  
You're the place  
Where life begins  
A diamond in the rough and  
Beautiful and nurturing  
And a goddess girl you'll stay  
In every way

You're a goddess everyday  
Every sunday through saturday

And a goddess girl you will stay  
Though everything will be okay  
Cause for every price you pay,  
Is a blessing on the way  
So don't let your stars go grey  
Wipe the tears from your eyes and say  
You're a goddess in every way
