

So Much More

Black Buddafly

There was you there was me together for eternity
A promise that will never be, reality but I don't need it
I got love, I got life, got my goods the rest's a prize
The past I gotta shake it off, a waste of time it's what it was

You was on my pride, strollin' with me on your side
Thought you were pimping my style, making me look good and I
was
Stupid just to believe that you were nothing without me
And I'm nothing without you what I fool, I was

Our life was over if we ever work through
But I've got so much more to live for (Don't want you to get me
wrong I)
Appreciate the good times I've spent with you
But I've got so much more to life for (Don't kill you only make
s you stronger)

Day and night, night and day interpretations of your face
Made me wanna run away and finally I'm here today
On my own and vividly filled with positivity
I've got more reasons than I've ever had to make this life the
best I can

You was on my pride, strollin' with me on your side
Thought you were pimping my style, making me look good and I
was
Stupid just to believe that you were nothing without me
And I'm nothing without you what I fool, I was

Our life was over if we ever work through
But I've got so much more to live for (Don't want you to get me
wrong I)
Appreciate the good times I've spent with you
But I've got so much more to life for (Don't kill you only make
s you stronger)

Appreciate the good times I've spent with you
But I've got so much more to life for (Kill you only makes you
stronger)
