

## Vestal Part I (Flame Between Her Thighs)

Black Countess

"I hear the voice of my Lord  
Whenever watch  
At flame spreading over forest  
A sunset flame  
Dressed as any of nuns but not like them  
With hand between legs trembling from desire  
I burn myself from flame of mine  
Blazing up more often in my dependent life  
My Lord promises to slake my wild desire  
Thus I decided to escape this night  
To his lonely castle  
Dark forest will shelter me and wolves will show the way"

My child I'm waiting for you in my crypt

Now you're at my door  
Break the holy seal  
Follow the steps down  
Open the coffin's cover  
Move apart your thighs  
Above my mouth  
Masturbate  
Give me your vestal blood  
Give me life after years of vampiric sleep

Put out your flame  
Slake your sexual starvation  
And don't think about further punishment  
Because it'll be just reward  
Come with me into the night life of blood and desire  
Be my Bride!
