Common Man

Black Country Communion

Lord won't you help me Make it through the night? No one can hear me Lead me to the light You are the reason I am here today Love is the answer Take me far away

On my own I'm no better than All alone I'm a common man

Where are you brother? I'm feelin' kinda low Sister and mother I want to let you know Can't break the chain It comes from deep within Live through the pain That's underneath my skin

On my own I'm no better than All alone I'm a common man

Called by the Siren Down by the sea Ghost in the distance It's callin' me You are the reason I am here today Love is the answer Take me far away

On my own I'm no better than All alone I'm a common man

On my way I will all I can I will stay Just a common man
