

Little Secret

Black Country Communion

I've been watchin' you go
I'm feelin' so low
In this episode
I cannot replace
I'm all out of Grace
I can't find the code
It broke me down
And took my pride
I wish I could turn
Back the tide
All is left to say?
Little secret
Little secret
And let it unfold
And Kill me inside
Shield, I can not defend
My fair weather friend
With no barricade
I'm letting you go
I'm lost in the glow
I feel so betrayed
I fail to inject
You've lost my respect
A fool to be wise
Where do I belong?
I thought I was strong
A storm on the rise
