[Chorus]

(One for all, one for all)
(It's all it's all for one)
Let's start a union, calling every human
It's one for all and all for one
Let's live in unison, calling every citizen
It's one for all and all for one

We don't want war- can't take no more
It's drastic time for sure
We need an antidote and a cure
Coz do you really think Mohammed got a problem with Jehovah
We don't want war - imagine if any prophet was alive
In current days amongst you and I
You think they'd view life like you and I do
Or would they sit and contemplate on why
Do we live this way, act and behave this way
We still live in primitive today
Coz the peace in the destination of war can't be the way
There's no way, so people just be a woman, be a man
Realize that you can't change the world by changing yourself
And understand that we're all just the same
So when I count to three let's change

[Chorus]

Got no time for grand philosophy
I barely keep my head above the tide
I got this mortgage, got three kids at school
What you're saying is the truth, but really troubles me inside
I'd change the world if I could change my mind
If I could live beyond my fears
Exchanging unity for all my insecurity
Exchanging laughter for my tears

[Chorus]

I don't know, y'all, we in a real deposition In the midst of all this negative condition Divided by beliefs, differences and religion Why do we keep missing the point in our mission? Why are we killing each other, what's the reason? God made us all equal in his vision I wish that I could make music as a religion Then we could harmonise together in this mission Listen, I know it's really hard to make changes But two of us could help rearrange, discuss Utilize the power in our voices Together we will unite and make the right choice And fight for education, save the next generation Come together as one I don't understand why it's never been done So let's change on the count of one

It takes one, just one
And then one follows the other one
And then another follows the other one

Next thing you know you got a billion People doing some wonderful things People doing some powerful things Let's change and do some powerful things Unity could be a wonderful thing

[Chorus]
