

Family Man

Black Flag

Do you want the family man
Or do you want the swingin' man?
You choose.
(family man)
You get the family man.

Family man
FAMILY man
Family MAN
With your glances my way
Taken no chances on the new day
Family man,
Family man with your life all planned
Your little sand castle built,
Smilin' through your guilt,
Family..man
Here I come.
Here I come family man
I come to infect.
I come to rape your woman.
I come to take your children into the street.
I come for YOU family man.
Family man with your christmas lights already up,
Your such a MAN when your puttin' up
Your christmas lights, first on the block.
Family man.
Family man, I wanna crucify you
To your front door, with nails
From your well stocked garage,
Family man, family man.
Family man.
Saint dad. Father on fire.
I've come to incinerate you
I've come home.
