

I've Had It

Black Flag

I can't go to work
The boss is a jerk
I ain't got time for this school
The fuckers are fools
I'm going to... explode
I've had it!
I lie around with the TV on I don't do nothin',
I just hang around Waitin' for your call
But I don't know where to fall
I'm going to... explode I've had it!
It's no use I can't take no more abuse
I'm tired of the fuckin' lines I'm losing my mind
I'm going to... explode
I've had it! Killin' all your dreams
Really who remembers?
I play guitar for my car
And I won't get very far I'm going to... explode.
