

You Let Me Down

Black Flag

Dear friend,

What happened to you?

I never got to tell you--You let me down.

And I'm not mad at you or anything, I'm just curious.

Did I do something to make you mad at me?

You could have at least written or called.

You let me down!

You let me down!

You let me down!

You let me down!

How could you do that? COULD YOU?

You didn't have any time? Really? COME ON!

I thought we were friends!

Maybe all the things all the people tell me about you are true

People come to me and say that you're a user and a social climber

But I didn't believe it then, and I don't believe it now.

You let me down!

You let me down!

You let me down!

You let me down!

You didn't come through on your end

Not only is that bad business

but thats something you should know something about.

And its a bad thing to do to someone who really likes you.

You let me down!

You let me down!

You let me down!

You let me down!

You hurt my feelings, I wish I was mad

and just get over it and not get mad anymore,

but I'm not mad, I'm just let down!

I'm just hurt, you let me down.

You let me down!

You let me down!

You let me down!

You let me down!

Maybe in time I'll see things in a different way,

But all I can think about is right now

And right now you let me down.

right now you let me down.

you let me down.

You let me down!

You let me down!

You let me down!

You let me down!

All I can think about:

You let me down

I wrote this thing cause I don't wanna think about you anymore.
