

## Druj Nasu

### Black Funeral

As the body fall under the cold shadow of death's embrace  
eternal life under the kiss of Ahriman  
falling deeper into eternal sleep  
a druj of the north, flying down as the insect god  
she touches the corpse, demon of the possessed flesh  
awaken my flesh as the child of darkness  
to enter the flesh, maggots awakening in the spirit  
I am death conquered, blood thirsty druj of the haunted wastelands  
From death's embrace do I welcome the touch of Nasu  
who is filth incarnate, fly formed goddess of vampiric life  
awaken me in the cold place of the temple, defiled by Yatus  
by Druj Nasu does the druj rush forth  
by Druj Nasu do I awaken from deathless sleep  
Be Nasu kasha, who carry the bodies away  
to feed the dragon who cuts the flesh away  
Mother of Abominations, feed upon the flesh of the dead  
may your spirit grow in strength, by your many forms arise
