

# Ghost In The Machine

Black Lab

Ghost in the machine  
She's a ghost in the machine

Ghost in the machine  
She's a ghost in the machine  
Ghost in the machine  
She's a ghost in the machine  
They say she cries, she cries, she cries, she cries, she cries

Last night in the monitoring room  
Got a little cunt she was paying her dues  
Her ice cold cry for the back of the room  
Will you hold me?  
Well, came home on a Saturday night  
Little I know, we got in a fight  
Showed the red stained hole in the back of the sole just to show me

Yeah,  
Ghost in the machine  
Ghost in the machine  
She's a ghost in the machine  
Ghost in the machine  
and we know how she dies  
In the machine  
In the television sky  
Oh we know; she cries, she cries, she cries, she cries, she cries

Don't sleep; I'm never alone  
Can't get through with the memory boot  
and the girl come after leave me alone will you hold me?  
Well we keep coming down like a cannon ball  
Everyone knows what they're thinking they saw  
Was a girl go walk right through the wall just to show me

She's a ghost in the machine  
Ghost in the machine  
She's a ghost in the machine  
Ghost in the machine  
and we know how she dies  
In the machine  
She's a ghost in the machine  
Oh they say; she cries, she cries, she cries, she cries, she cries

Wants to be seen  
In the television sky  
Oh we know; she cries, she cries, she cries, she cries, she cries

We know she cries  
Ghost in the machine

Ghost in the machine  
In the television sky  
We know she's alive  
In the middle of my mind  
She's a ghost in the machine  
Ghost in the machine  
She's a ghost in the machine

Ghost in the machine  
and we know how she dies  
Somewhere in between  
Her body and her mind  
They say she cries, she cries, she cries, she cries, she cries  
She wants to be seen  
In the television sky  
and we know she cries, she cries, she cries, she cries, she cries
