

## See The Sun

Black Lab

If I feel this feeling  
If I let myself go deep again  
Will you stay by my side, yeah  
Cause if I feel this feeling  
Things won't ever be the same again  
If planets collide I won't mind,  
No I'll be fine

I can't see the sun anymore  
I can't feel the drugs anymore  
I can't see the sun anymore  
But I don't mind  
You're by my side  
And I feel fine.

Are you my revelation  
Are you the answer to my question  
Or have I wasted my time, yeah  
Cause if I feel this feeling  
Will you crawl out of your perfect skin  
And climb in to mine will you shine  
Will you be my light?

I can't see the sun anymore  
I can't feel the ground anymore  
I can't see the sun anymore  
But I don't mind  
You're by my side  
And I feel fine

Hey michell we're too young to be alone  
Hey 'shell is your heart still made of stone  
Hey babe I call will you take me home  
Hey babe I'm calling hear me calling
