

# Ten Million Years

Black Lab

It's such a simple thing, I never feel this way  
I have nightmares, I have dreams of you gone  
There is something in you I want today  
So hide the bones away beneath the yellow lines

You're scared of what you lose  
Or what you might gain this time  
I love you more than I should

I would wrap my heart in bands of rosewood  
I love you more than I should  
I would stay beside you here ten million years

You see yourself in the mirror  
You see yourself at night  
You see yourself in the gutter  
Baby you see yourself like a star shining bright

I love you more than I should  
I would stay beside you here ten million years  
Every minute, every hour  
Every second you take me over

Every night of every day I wait, I take  
I know I take but I love you more than I should  
I would stay inside you here ten million years
