## **Ain't Life Grand**

## **Black Label Society**

Conceived to kill, living just to die Hell in a handbasket, why even try Death on death, makes the world go round Fitting to live six feet underground

Oh Yeah, Oh Yeah Ain't nothing else gonna change The more they do, the more they're the same Different name familiar face Not to be taken or replaced

Killing, raping, bridge burning, forsaken Despising, undermining, betraying, slaying Give it a hand, ain't life grand?

The world at war, number one One more time 'cause is was so damn fun Things were pure, back in the day You're fucking dreaming old man, it's always been this way

Oh Yeah, Oh Yeah Ain't nothing else gonna change The more they do, the more they're the same Different name familiar face Not to be taken or replaced

Killing, raping, bridge burning, forsaken Undermining, despising, betraying, slaying Give it a hand, ain't life grand?
