Bleed for Me

Black Label Society

This grave of life, I give to you Ignore what was, you know it's true Realms of fear, they speak the truth What has past, I hand to you

Bleed for me, I've bled for you Embrace me, child, I'll see you through Bleed for me, I've bled for you Embrace me, child, I'll see you through I'll see you

I'll dig a hole, and bow my head To see you smile, I'd face my death Realms of fear, they speak the truth What has past, I hand to you

Bleed for me, I've bled for you Embrace me, child, I'll see you through Bleed for me, I've bled for you Embrace me, child, I'll see you through I'll see you

Bleed for me, I've bled for you Embrace me, child, I'll see you through Bleed for me, I've bled for you Embrace me, child, I'll see you through I'll see you
