

Dead Meadow

Black Label Society

All alone at last Years go by so fast
twisted and insane the house you built
no longer the same,

Once you're there once you're there
you can't come back,
Nothing lives nothing grows, inside the dead meadow

Months keep rolling by
Live another day then you die,
Ghosts inside your head we choose our paths
When all is down and said.

Once you're there once you're there
you can't come back,
Nothing lives nothing grows, inside the dead meadow

Once you're there once you're there
you can't come back,
Nothing lives nothing grows, inside the dead meadow.
