

# Empty Promises

Black Label Society

Future's uncertain  
So far from home  
Hopes of tomorrow  
Gathered and flown

I gave you my word  
Swore with my blood  
You gave me empty promises  
With nothing in return  
Worthless words  
The funeral pyre burns  
You gave me empty promises  
With nothing in return

Fear has subsided  
Calloused and numb  
Death of compassion  
There is no return

I gave you my word  
Swore with my blood  
You gave me empty promises  
With nothing in return  
Worthless words  
The funeral pyre burns  
You gave me empty promises  
With nothing in return

I gave you my word  
Swore with my blood  
You gave me empty promises  
With nothing in return  
Worthless words  
The funeral pyre burns  
You gave me empty promises  
With nothing in return
