

# Godspeed Hellbound

Black Label Society

Decisions that kill  
And bullets that fly  
Lords of inferno  
That litter the sky

Schizophrenic poems of death  
Machine ever after that never rests

As the world burns  
Beneath the ground  
Godspeed  
Hellbound

The gears that grind  
Shall never be still  
The grudge that burns  
Obsessed 'til it kills

Shattered cries of the

Prayers never heard  
War of the gods that  
Drown out of words

Crashing burning all shall fade  
Dead and dying here to stay

Against his maker  
No regard for his fall  
The winds of the west  
Bow down to his call

Famine and murder  
Beside from within  
The vultures gather  
Devouring sin
