

## Rust

**Black Label Society**

Living, fighting, obsessing  
Just as long as I can share it all with you  
Yesterday, today, tomorrow, come rain, come shine  
Hell and back, the beginning in between till' the end of time

R: All that shines turns to rust  
All that stands in time turns to dust

But you ain't no fool and honey, I'm damn sure that you know  
Yesterday, today, tomorrow, come rain, come shine  
Hell and back, the beginning in between till' the end of time
