

Blind me, erased what was
Stillborn I have become

The feelings I once felt are now dead and gone
I've waited here for you for so very long

So empty, just a shell of a man
Stillborn, this I understand

The feelings I once felt are now dead and gone
I've waited here for you for so very long

I've wated here for you so long
I've wated here for you
For you

The feelings I once felt are now dead and gone
I've waited here for you for so very long

I've wated here for you so long
I've wated here for you so long
I've wated here for you so long
I've wated here for you
For you
