

The Last Goodbye

Black Label Society

Take me down this road
I've been done here once before
Take me down this road
Once again, never again, forevermore
Take me down this road once more

Take this love
Take this life
Take this blood
It'll never die
Take this love
Take this life
Take this blood
It'll never die
This ain't the last goodbye

Take me down this road
Just to see a smile on your face
Take me down this road
All that is and all that was cant be replaced
Take me down this road once more

Take this love
Take this life
Take this blood
It'll never die
Take this love
Take this life
Take this blood
It'll never die
This ain't the last goodbye

Take this love
Take this life
Take this blood
It'll never die
Take this love
Take this life
Take this blood
It'll never die
This ain't the last goodbye
