

Cruising

Black Lips

Didn't hear ... pass start go
Out to the car, lets hit the road
Don't go back, don't go too slow
Cut through the woods, stick to the back road
I'm not worried about the border line
Should you ... never see ...
Stick around, you're doing fine
Keep the wheel straight
I'm not worried about the border line

Slow down, signal every single girl
Easy on the gas so the rubbers don't burn
When I see a sign I'm coming to a stop
I gotta get all though, I can't get enough
Cause nothing but green ...
One eye on the windshield, the other in the rearview
Don't go back, don't go too slow
Cut through the woods, stick to the back road
... on the road all alone
Just a couple of miles till I get back home
Stick around, you're doing fine
Keep the wheel straight
Don't go over the line

Slow down, signal every single girl
Easy on the gas so the rubbers don't burn
When I see a sign I'm coming to a stop
I gotta get all though, I can't get enough
