

We're rollin, are you headstrong?
Cause something', is bout to get gone
We love it, callin' mayday
SOS, I don't know, wheres my baby

I don't feel so corny now
now that the worlds turned upside down!
I'm that boy who thinks its funny

I feel like I'm going down in the same round
A thought in my mind made me hear that empty sound
I'm that boy who thinks its funny

So funny

We're ridin', little lady
Come and suck some milk from my titties!
I love you like an eskimo hand grenade
Pull the clip little baby lets explode today!

I don't feel so corny now
now that the worlds turned upside down!
I'm that boy who thinks its funny

I feel like I'm going down in the same round
A thought in my mind made me hear that empty sound
I'm that boy who thinks its funny

I don't feel so corny now
now that the worlds turned upside down!
I'm that boy who thinks its funny

I feel like I'm going down in the same round
A thought in my mind made me hear that empty sound
I'm that boy who thinks its funny
