

## Off The Block

Black Lips

Space salvation  
Allegation  
Feel the sun's  
Radiation  
Death tolls forming  
Under oceans  
Neptune's calling  
In slow motion  
In slow motion

But you never get off the block

Painted faces  
Being places  
All the people are all famous  
Band is coming  
Seven years running  
Legal body  
Will he find it  
Will he find it  
But you never get off the block
