

## Step Right Up

Black Lips

Step right up get it line  
No admission free this time  
About see some truth at hand  
In just a moment you'll understand

Maybe you missed it the first time  
Didn't quite get it on the second line  
Now's the last chance for your kind  
Cause then it's not coming back again!

Now you want it it's what you need  
And what you need you can't have  
Cause it's mine, all mine  
Less you kill me, free your mind

Now you've seen it, whatcha think?  
The beautiful colors on the bathroom sink  
And it's gone, all gone  
Now you see it, just like King Khan
