

Destiny hands of injustice delivered

What has been received is not always as it seems
Standing and alone the light fades as he leaves

Saviour be known
Say a prayer to keep us safe
Your words will prevail and set us free
Father of time the sands are drifting
Through your hands like water
Guardian

Draining life controlled by a life of deception
He has seen the visions that guide us to wisdom

What has been received is not always as it seems
Standing and alone the light fades as he leaves

Saviour be known
Say a prayer to keep us safe
Your words will prevail and set us free
Father of time the sands are drifting
Through your hands like water
Guardian

Life's embraced denied is the moment of dying
Time is now relinquish your thoughts
and your demons

What has been received is not always as it seems
Standing and alone the light fades as he leaves

Saviour be known
Say a prayer to keep us safe
Your words will prevail and set us free
Father of time the sands are drifting
Through your hands like water
Guardian

He's alive - standing right before you
He'll show you a paradise
Time to change your ways

There's a life you left behind
Just a reminiscence of mankind
There's a life you left behind
and now it's gone
In time I'll change my way
