

## Wish You Well

Black Majesty

When your ships have sailed  
They take you where you want to be  
Right there  
Right there where you belong

It's never going to be the same  
Never be the same  
All that you hold dear will soon be gone  
Letting go is the only way of you learning how to  
Say goodbye

Set your dreams for the stars  
And to hope a safe return  
Spread your wings and learn to fly  
For a safe and better life  
Let god speed be your guide  
And protect you on your way  
Wish you well dear old friend  
Until the day we meet again  
When all else is gone  
Keep a hold onto  
This key to life  
You'll be alright  
As it will serve you well

Never gonna make mistakes  
Never make mistakes  
All that you hold dear will soon be gone  
Letting go is the only way of you learning how to  
Say goodbye
