

## Every Time

Black Milk

I've lately been looking for  
That someone I'm wanting more  
I've opened up wide the door  
And I see you standing there  
I'm hoping you'll stay with me  
That you'll love me so easily  
Just open your eyes to see  
All the roads that lead you here

Every time I'll be the one  
Every time I see the sun  
Everyday I say  
Don't go away  
Every night I close my eyes  
Every night you see the sky  
Everyday I say  
Don't go away

I'm giving my love to you  
I've offered my heart, it's true  
If you hold me close then you  
Have a chance to be my man  
I know what you need and I  
Break down when I see you cry  
I want you to know that I  
Want to give you everything

Every time I'll be the one  
Every time I see the sun  
Everyday I say  
Don't go away  
Every night I close my eyes  
Every night you see the sky  
Everyday I say  
Don't go away

Ooh, ooh, ohh...  
I need you baby  
Ooh...
